

# Velocloud SASE Made Easy

Get hassle-free SASE solutions  
that grow with your business.

Your business deserves better than a “one-size-fits-all” approach to SD-WAN and SASE. Perfect Packet is the partner you can trust to deliver fast, secure SASE – from network design and implementation to ongoing support. Our engineers have tested and vetted every SASE leader, so you can rest easy knowing you’re getting the best solution from the very first step.

## Benefits

- ✓ Hassle-free installation in a matter of minutes
- ✓ Secure transmissions across town or the globe
- ✓ Complete visibility and control over your network
- ✓ Operational simplicity and cost efficiency
- ✓ Direct access to our dedicated support team

PERFECTPACKET | VeloCloud

## The Perfect Packet Promise

We’re your trusted SASE guide, and we’ll always go the extra mile to **optimize your network** so it runs smoothly.

We deliver the best in SASE solutions – **VeloCloud® SASE** – from the very first step.

We’ll complete all **system migration, network implementation, and ongoing network management** updates throughout the launch.

## What You **Get**

OpEx and CapEx pricing with up to 40% savings over MPLS

Complete system installation in minutes

Built-in features to enforce regulatory standards across the network

Threat prevention, data protection, and compliance in one solution

Active-active connections, packet steering, and load balancing

Improved packet loss, jitter buffering, and circuit latency

And much more

## Our **Process**

Working with Perfect Packet is easy! Here's our streamlined process:

01

### Discovery Call

We'll connect to discuss your network challenges.

02

### Demo Session

You'll see how SD-WAN and SASE work in a live demo.

03

### Migration & Updates

You get a dedicated engineer to migrate your systems.

04

### Implementation

We implement our solution across all your locations.

05

### Updates, Management, & Expansion

We'll connect to discuss your network challenges.

## Enjoy SASE **Made Easy**

Ready to get started with a simple, secure SASE solution – delivered by a partner that makes good on its promises? **Book your live demo** with Perfect Packet today.
